

calc_geom::torsion
_heading

```
graph LR; A[print_headings] --> B[calc_geom::torsion_heading]
```

A diagram showing a call from a function named `print_headings` to a function named `calc_geom::torsion_heading`. The `print_headings` function is represented by a white rectangular box with a black border on the right. The `calc_geom::torsion_heading` function is represented by a gray rectangular box with a black border on the left. A dark blue arrow points from the right side of the `print_headings` box to the left side of the `calc_geom::torsion_heading` box, indicating the direction of the function call.
